

The Student Experience in Brief: University of North Carolina at Greensboro

Each year the National Survey of Student Engagement (NSSE) asks students at hundreds of colleges and universities to reflect on the time they devote to various learning activities. The topics explored are linked to previous research on student success in college.

Results from NSSE can provide prospective students with insights into how they might learn and develop at a given college. To help in the college exploration process, NSSE developed *A Pocket Guide to Choosing a College* to provide students and their families key questions to ask during campus visits.

The following responses were provided by 1,065 randomly selected UNC Greensboro students on the 2011 NSSE survey.
